LCI workshops

on high performance clustered computing

Introductory Workshop

Rutgers University
Piscataway, New Jersey
August 19–23, 2019

Intermediate Workshop

University of Oklahoma
Norman, Oklahoma
May 13–17, 2019

Expert instructors from across the country will cover the fundamentals of setting up and administering a high-performance computing (HPC) cluster in these hands-on workshops. Topics include Intro to HPC, Build-A-Cluster, Condo Model, and Remote Visualization.

More details and registration information will be available soon at www.linuxclustersinstitute.org/workshops.

Attendees should have experience as an administrator of a Linux system.
